

I am a junior full-stack web developer who has recently completed intensive full-time training, where I enhanced my skills in modern web technologies. With hands-on experience in React, Express.js, and Vite, I excel at creating interactive and scalable web applications. My approach combines a strong technical foundation with creativity and problem-solving, allowing me to deliver user-centered solutions. I'm passionate about continuous learning and applying new skills to real-world projects, making me eager to contribute to forward-thinking teams and projects.

EDUCATION

PROJECTS

Projects/Portfolio

World trivia (10/2024 - 11/2024)

- The World Trivia project that I created focuses specifically on European countries, offering users quizzes about geography, history, cultures, and other facts related to Europe. This project allows users to test their knowledge and learn interesting details about each European nation.

Job Compass (01/2025 - 02/2025)

- JobCompass helps job seekers track, manage, and analyze job applications with powerful, modern tools.

Balkh Food Express (03/2025 - Present)

- Balkh Food Express delivers authentic Afghan buffet meals with full equipment, catering to large gatherings across Germany. Our service ensures convenient, high-quality event catering with a seamless booking experience.
